

**Indicator 1B, Curricula Offered to Achieve Mission
as Applicable to Regional Campuses & Technical Colleges for Year 10**

Measured as the percent of degree programs that (1) are appropriate to degree-level authorized by CHE and the Act 359 of 1996, (2) support the institution's goals, purpose, and objectives as defined in the approved mission statement; and (3) have received full approval in the most recent CHE review of that program. The resulting percent is rounded to the nearest whole percent. For additional details, please refer to pages 69-71 of the Performance Funding Workbook, revised October 2004 and page II.19-II.21.

Two-year Institutions: For 2-year institutions, the third criteria, CHE program review, does not apply. Performance is determined by reviewing the programs offered against the first two criteria. Institutions for which all programs meet the two criteria are determined to be in compliance with expectations that all programs meet the two applicable criteria.

Degree Programs are those approved by the CHE as listed in the Inventory of Academic Programs as of March 2004, for purposes of determining Year 8 Performance. To determine performance, degree programs are counted at the level of the degree designation (e.g., BA, BS, MA, PhD...). Degree programs offered at multiple sites by an institution are counted once. For example, an institution offers a BS in "French" at its campus and another off-site location, the BS in French is counted as one program). An exception to this general rule is made when CHE program reviews are conducted at the "option-level" of a degree. In such cases, each option reviewed is counted. For example, if an institution offers a BA degree in Secondary Education with options in English, History and Social Studies and the areas were reviewed separately, then the 3 not 1 degree programs would be counted. However, if the Secondary Education degree program were reviewed as a whole, then it would count as one program. To date, this exception has applied primarily to teacher education programs.

CHE Inventory of Academic Programs is as of April 27, 2006

CHE Program Reviews (n/a for 2-yr, applies in 1B only to MUSC and 4-year institutions.)

2-Year Institutions	# Meeting Each Criteria	Total # of Programs	Compliance If All Programs Meet Applicable Criteria
			Yr 10 Performance
USC Lancaster	5	5	Compliance
USC Salkehatchie	2	2	Compliance
USC Sumter	2	2	Compliance
USC Union	2	2	Compliance
Aiken Tech	22	22	Compliance
Central Carolina Tech	16	16	Compliance
Denmark Tech	11	11	Compliance
Florence-Darlington Tech	28	28	Compliance
Greenville Tech	34	34	Compliance
Horry-Georgetown Tech	28	28	Compliance
Midlands Tech	32	32	Compliance
Northeastern Tech	9	9	Compliance
Orangeburg-Calhoun Tech	24	24	Compliance
Piedmont Tech	23	23	Compliance
Spartanburg Tech	21	21	Compliance
Tech Coll. of the Low Country	15	15	Compliance
Tri-County Tech	20	20	Compliance
Trident Tech	32	32	Compliance
Williamsburg Tech	5	5	Compliance
York Tech	21	21	Compliance
